

STUDENT PRE-COUNSELLING FORM

Career Counselling Programme — Class 9 & 10

Instructions for Student

19 Questions	6 Sections	10–12 Minutes	100% Confidential

Before You Fill This Form

1

Find a quiet spot.

Sit somewhere with no distractions, no noise, no interruptions. These questions need your honest, unhurried attention. Treat this time as an investment in your own career clarity, not a task which you just need to finish of in any manner.

2

Set aside 10–12 minutes.

This is not something to rush through between classes. Choose a time when you are relaxed and can reflect properly. Quality of reflection matters more than speed.

3

Keep your phone away.

Avoid the urge to check messages while filling the form. It breaks the flow of honest self-reflection, give it your full focus.

What This Form Is About

- This is not a quiz or test, and it is not being graded. There are no right answers and no wrong answers.
- This form helps your counsellor get to know you before your session. The more honestly you fill it, the more personalised and useful your counselling session will be.
- Think of it as a conversation starter, not an assessment. You are not being judged. Your responses are completely confidential and will only be seen by your counsellor, not even your parent.

The Golden Rules — Read These Carefully

Be honest. Be yourself.

Answer based on how you actually are, not how you want to appear, not what sounds impressive, not what you think a counsellor wants to hear. The more genuine your responses, the more your session will feel tailored to you.

**Take your time, go with your first instinct.**

For open-ended questions, write what naturally comes to mind. For multiple-choice questions, go with your first instinct. Your gut reaction is usually the truest one. If you sit on a question too long, you start second-guessing yourself.

**Do not skip questions.**

Every question gives your counsellor something useful. If something feels too personal, just write as much as you are comfortable with, but try not to leave anything blank.

**Your responses are private.**

Only you and your career counsellor will see your answers, not even your parent. This is a safe space, there is no audience, no judgment, no grades. Be real.

**It is okay to say 'I don't know'.**

If you are unsure about your career direction, that is perfectly normal at your age. Write 'Still Exploring' wherever asked. Your uncertainty is valuable information too.

You are ready. Take a deep breath.

There is nothing to prepare for. Just be yourself and let your counsellor do the rest.
