

COUNSELLOR CHART

Class 9 & 10

How to use this form

This form is completed by recording the responses given independently by the student and the parent in their respective pre-counselling questionnaires as well as the assessment. The goal is to place both perspectives side-by-side for easy comparison and pattern detection. All The Best !!!

OUR CHAMPION

Details of student collected initially (Profile Form) at the time of onboarding is placed here. No other data. Boxes below gets populated with the available information as received.

Name of the Champion	
Current Academic Year	
Name of the Institute & Location	
Father's Name	
Occupation & Company	
Mother's Name	
Occupation & Company	

ACADEMICS & NON-ACADEMICS VIEW

Place the academic record here for Class 7, 8 & 9 whatever available. The table of Q1 in the Pre-counselling form of the student captures this.

Subject	Class 7	Class 8	Class 9
English			
Second Language			
Science			
Mathematics			
Social Science			
Computer Science			
Other: _____			

No	Parameter	Student Response	Parent Response
A1 · Subject Preferences & Academic Performance			
A1.1	Favourite Subject	1 & 2	1
A1.2	Least Liked Subject	1 & 3	2

A2 · Non-Academic Activities, Hobbies & Learning Mode			
A2.1	Non-academic / free-time activity	4	4
A2.2	First Hobby — Name & weekly hours spent	5	NA
A2.3	Second Hobby — Name & weekly hours spent	5	NA
A2.4	Most enjoyed school activity	7	NA
A2.5	Preferred mode of learning at school	8	NA

COUNSELLOR SYNTHESIS NOTES	
Sl No	Notes
A1	<i>Compare student's favourite/least-liked subjects (A1.1–A1.2) against the parent's perception. If the favourite subject matches what the parent identifies as a strength, that's an ideal anchor for stream recommendation. If they diverge, probe the direction of the gap: a parent-identified strength the child doesn't enjoy may mean the child is performing under pressure rather than genuine interest; a child-enjoyed subject the parent doesn't recognise may be a hidden passion not yet visible in performance. For the least-liked subject, distinguish whether the dislike is interest-based ("I find it boring") or difficulty-based ("I struggle but would try if taught differently").</i>
A2	<i>Hobby & free-time pattern, look for early RIASEC signals in the non-academic activity and hobbies (e.g. creative hobby → Artistic, tinkering/building → Realistic, reading → Investigative).</i>
A3	<i>Learning mode preference (A2.5), note how this may point toward a stream or career style that will suit the student best.</i>
A4	<i>Engagement breadth is the student engaged in a wide range of school activities (A2.4) or narrowly focused? Note whether this reflects genuine interest or lack of exposure/opportunity and point toward a stream or career style.</i>
A5	<i>Academic Trend : Improving/Stable/Declining/Not Assessed and point toward a stream or career style.</i>

All Counsellor Synthesis Notes to have maximum 10 entry lines for the Counsellor.

STRENGTHS & PERSONALITY VIEW

PRE_COUNSELLING VIEW

No	Parameter	Student Response	Parent Response
B1 · Personal Strengths & Enjoyment			
B1.1	Top personal qualities / strengths – Definitely me or Clearly see this	9	3
B1.2	Top personal qualities / strengths – Somewhat me or Sometimes	9	3
B1.3	Special skill or talent mentioned by parent — any unique ability noticed	NA	5
B1.4	Consistency of interests over time — are the student's interests stable or frequently changing?	6	6

B2 · Personality Type & Decision-Making			
B2.1	Perceived personality type	11	NA
B2.2	Primary character description by parent	NA	7
B2.3	How student interacts with peers & teachers	NA	8
B2.4	General approach to making important decisions	12	9
B3 · Obstacles & Response to Failure			
B3.1	Main obstacles during study	10	11
B3.2	Response to failure or negative feedback	13	10

COUNSELLOR SYNTHESIS NOTES	
SI No	Notes
B1	<i>Strength Alignment : Compare student self-rated strengths (B1.1–B1.2) with the parent's view and any special talent the parent alone noticed (B1.3); flag strengths the student may be underselling or overselling.</i>
B2	<i>Personality Synthesis : Reconcile the student's perceived personality type (B2.1) with the parent's character description (B2.2/B2.3); note if the two paint a consistent or conflicting picture. Cross check with BIG Five scores.</i>
B3	<i>Decision-making Style : Note whether the student's approach (B2.4) is independent, consultative, or impulsive, and whether the parent's account (B2.4 parent column) matches.</i>
B4	<i>Resilience Pattern : From B3.1–B3.2, note how the student typically handles setbacks (reflective vs deflecting vs demotivated). This shapes how directly to deliver assessment feedback in-session.</i>
B5	<i>Divergence Flag : Record any notable gap between student self-image and parent observation in this section that needs sensitive handling in the session.</i>

FLAGGED MIRROR PAIR QUESTIONS OF ASSESSMENT

Records the Mirror Pairs only if Gap is 0 – Strong contradiction. All 10 mirror pairs not required to be displayed here. Counsellor has the option to amend the response only which will impact the RVS.

Pair	No	Question	Student Response	Counsellor Amendment
MP1	Q4 (pos 48)	Realistic Q		
	Q16 (pos 41)	Social Q		
MP2	Q8 (pos 46)	Investigative Q		
	Q20 (pos 63)	Enterprising Q		
MP3	Q12 (pos 62)	Artistic Q		
	Q24 (pos 19)	Conventional Q		

CAREER ASSESSMENT VIEW

Records the 18 traits that has been assessed layer wise in the order RIASEC, BIG Five, Cog&Dec, Aptitude. Show all traits under each respective heads.

No	Layer - Trait	Trait Name	What It Measures	%	Grade	Grade Meaning
1	RIASEC - Conventional	Systematic & Disciplined	Preference for structured work, planning, accuracy, routines, and systematic procedures	83.36	Highly Preferred	A strong trait with natural interest, you can expertise
RED FLAG if any – explained in Tie-break & Edge case Rules under RIASEC of Assessment Construct file						
No	Layer - Trait	Trait Name	What It Measures	%	Grade	Grade Meaning
1	BIG Five – Openness	Intellectual Curiosity	Willingness to explore new ideas, experiences, perspectives, creativity, and intellectual curiosity.	72.64	Evident	This tendency is generally present and influences your behaviour in many situations
RED FLAG if any – explained in Tie-break & Edge case Rules under BIG Five of Assessment Construct file						
No	Layer - Trait	Trait Name	What It Measures	%	Grade	Grade Meaning
1	Cognitive & Decision – Learning Ability	Knowledge Agility	Ability and willingness to learn new skills, adapt quickly, and absorb new concepts efficiently	52.82	Emerging	This behaviour appears occasionally but is not yet consistently demonstrated
No	Layer - Trait	Trait Name	What It Measures	%	Grade	Grade Meaning
1	Aptitude – Verbal Reasoning	Textual Intelligence	Language comprehension, reading interpretation, analogy, argument analysis, and verbal logic	47.33	Developing Capability	Demonstrates moderate potential but may require additional training and exposure

CAREER STYLE	PERSONAL SIGNATURE	THINKING MODE
Mention the top trait of RIASEC 120	Mention the top trait of BIG FIVE 20	Mention the top trait of COG&DEC
Description as per table	Description as per table	Description as per table

COUNSELLOR SYNTHESIS NOTES	
Sl No	Notes
C1	Activity in or outside school which can reinforce CAREER STYLE
C2	Activity or skill which can reinforce PERSONAL SIGNATURE
C3	Activity or skill which can reinforce THINKING MODE

C4	<i>If either is flagged “No Strong RIASEC Preference Emerging” or “Highly Undifferentiated Profile”, treat the Career Style output as a starting point for exploration, not a settled preference, and plan a qualitative follow-up conversation.</i>
C5	<i>If the Big Five profile triggered either flag: “Stress Vulnerability - Flag for Counsellor Attention” or “Balanced Personality Profile, Low Differentiation”, then the first warrants a gentle, non-clinical check-in during the session; the second means the Personal Signature label should be held loosely</i>

SETTING THE COMPASS – CAREER DIRECTION

PRE_COUNSELLING VIEW

No	Parameter	Student Response	Parent Response
C1 · Career Preferences & Motivations			
C1.1	Specific career goal or field	14	12
C1.2	Core reason for career interest	15	13
C2 · Influencers & Alternative Careers			
C2.1	Biggest influencer on student's career choice	16	NA
C2.2	How well parent understands the student's interests	17	NA
C3 · Parental Stance, Constraints & Decision Dynamics			
C3.1	Is parent open to exploring alternative or unconventional careers based on assessment?	NA	14
C3.2	Financial constraints to be considered for future education	NA	15
C3.3	Openness to studying outside the city — domestic relocation	NA	16
C3.4	Openness to studying abroad — international	NA	16
C3.5	Who makes the final major decisions about the child's education?	NA	17
C3.6	Is the child actively involved in major education decisions?	NA	18
C3.7	Parent's biggest concern about the child's academic & career future	NA	19
C3.8	Any specific behavioural or academic issue the parent wants the counsellor to prioritise	NA	20

COUNSELLOR SYNTHESIS NOTES	
SI No	Notes
D1	<i>Career Goal Alignment : Compare the student's stated goal (C1.1) with the parent's preferred path (C1.1 parent column); note whether they match, partially match, or diverge.</i>
D2	<i>Motivation Driver : Compare the underlying reason for interest on both sides (C1.2) - passion, stability, prestige, earning potential and note if student and parent are optimising for the same thing.</i>
D3	<i>Influencer Mapping : Note who is shaping the student's career thinking (C2.1) and how well the parent actually understands the student's interests (C2.2); flag if an external influencer is dominating over self-driven interest.</i>
D4	<i>Openness Check : Compare the parent's stated openness to unconventional careers (C3.1) against what the assessment is likely to recommend; flag early if a mismatch is expected so the session can address it directly.</i>
D5	<i>Practical Constraints : Capture financial, relocation, and decision-ownership constraints (C3.2–C3.6) that must shape a realistic roadmap, plus any specific concern (C3.7–C3.8) to raise carefully with the family.</i>

STREAM FIT – 11&12

Mechanism already explained in the Assessment construct. Data picked from Traits & Weightages file.

Main Stream	Sub-Stream	Core Subjects	Electives	Stream Requirement	Grading Level	Meaning

RELIABILITY OF THE ASSESSMENT

This section summarises how trustworthy and sincere the responses were.

EIM Engagement Integrity Measure	<i>How consistent were your personality answers?</i>
	% Grading
	Grading meaning.
ACI Aptitude Test Coherence Index	<i>How logically did aptitude answers progress?</i>
	% Grading
	Grading meaning..
AAI Aptitude Accuracy Indicator	<i>How many questions were marked 'Not Sure'?</i>
	% Grading
	Grading meaning..
HRS Holistic Reliability Score	<i>Was the completion pace psychologically normal?</i>
	% Grading
	Grading meaning.

COUNSELLOR SYNTHESIS NOTES	
SI No	Notes
F1	<i>EIM follow-up : If below 75%, plan to gently re-probe Mirror Pair items conversationally, rather than presenting the personality profile as fixed.</i>
F2	<i>AAI / 'Don't Know' pattern : A high proportion of 'Don't Know' responses signals genuine uncertainty, low confidence, or disengagement, not necessarily low ability. Note which specific aptitude areas had the most 'Don't Know' responses and frame these as development opportunities if required in career planning or academics. Read this with ACI parameter also.</i>
F3	<i>Re-assessment Call : Based on the reliability picture, note whether a full re-assessment is warranted, or whether a supplementary conversation in-session is sufficient to firm up the profile.</i>

ROADMAP

NOW (Class 9–10)	CLASS 11–12	AFTER CLASS 12
• Skills to Build	• Stream to Choose	• Degrees to Target
<i>Communication, reading comprehension, basic digital literacy, and daily mental maths practice (15 min/day to address Numerical gap), do python coding class (one technology recommendation)</i>	<i>Humanities with Psychology</i>	<i>BA Psychology, BJMC, BA Sociology / Social Work</i>
• Activities to Join	• Exams to Watch	• Certifications
<i>Student council, school committees, peer tutoring, cultural events, community service.</i>	<i>CUET, IIMC Entrance, Symbiosis SNAP, CLAT (if Law interest develops), TISS NET</i>	<i>Coursera / NPTEL courses in Communication, Social Psychology, or Public Speaking; MS Excel basics for career versatility</i>
• Habits to Develop	• Electives to Pick	• Study Abroad
<i>Daily reading (one editorial or chapter), weekly self-reflection journaling, planner use for study scheduling</i>	<i>Psychology or Sociology as elective within chosen stream; consider basic Economics for broader options</i>	<i>IELTS prep can begin in Class 12; UK, Australia, and Canada offer strong Psychology and Social Work programs</i>

STUDENT CAREER READINESS INDEX (SCRI) — COUNSELLOR RATING

To be rated by the counsellor at the end of the session, based on how the student engaged across the conversation (after SESSION 2).

Code	Indicator	What It Tracks	Rating Guide (1 = Low → 4 = Strong)	Counsellor Score (1–4)
S1	Confidence	Comfort discussing career topics	1 — Hesitant, avoids the topic, monosyllabic answers 2 — Engages only when prompted; visible hesitance 3 — Generally comfortable; occasional hesitation 4 — Calm, clear, self-assured across the session	_____
S2	Reasoned Thinking	Personal vs. borrowed reasoning	1 — Answers driven entirely by parent/peer opinion, no personal reasoning 2 — Mostly borrowed reasoning with occasional personal input 3 — Balances own view with external input; some justification given 4 — Consistently justifies choices with own reasoning	_____
S3	Reduced Anxiety	Comfort with uncertainty	1 — Visibly anxious, avoids ambiguity, seeks certainty urgently 2 — Some discomfort with open-ended questions; needs reassurance 3 — Manages uncertainty with mild support from counsellor 4 — Explores calmly and curiously, comfortable not having all answers	_____
S4	Self-Awareness	Own interests vs. others' expectations	1 — Unclear about own interests; largely echoes others' expectations 2 — Partial self-awareness; some confusion with external pressure 3 — Fairly clear about self, with occasional external influence 4 — Clear self-narrative of interests, strengths, and values	_____
S5	Career Curiosity	Active exploration between sessions	1 — No independent exploration; entirely passive 2 — Minimal exploration, only when directed to 3 — Occasional independent exploration between sessions 4 — Active researcher; brings new questions and findings	_____
S6	Decision Ownership	Who is driving the decision	1 — Decision fully driven by parents/others 2 — Student has some voice, but parents largely decide 3 — Shared ownership between student and parents 4 — Fully owns the decision; counsellor is a guide	_____

SCRI Total (S1+S2+S3+S4+S5+S6, out of 24)	SCRI Band (1–4)	SCRI Band Label
_____ / 24	_____	_____

SCRI Band Reference (for scoring only — copy the matching band into col above)

Total Score	Band Label	kREATE Report	Tips for the Student
6–10 (Band 1)	Pre-Exploration	Right now, thinking about careers still feels new and a little far away and that's completely okay! At this stage, most of your ideas about the future come from what your parents, teachers, or friends have told you, rather than from things you've explored yourself. This is where almost everyone starts. There's no pressure to have it figured out yet. This is simply your starting point.	• Talk to 2–3 adults you know (parents, relatives, teachers) about what they actually do, no need to decide anything. Understand their career. • Watch one video or read one article a month about a career that sounds interesting, purely out of curiosity.
11–15 (Band 2)	Early Exploration	You've started thinking about your own interests and ideas, that's a great sign! Every now and then, a genuine spark of curiosity comes through. But most of the time, you're still looking for someone else to confirm you're on the right track, rather than trusting your own judgement. That's a totally normal part of figuring things out.	• Pick one subject you genuinely enjoy and find out two careers connected to it. • Join one new club, activity, or competition purely because it seems interesting or to learn. • Ask one teacher or elder a question about how they chose their own career path.
16–20 (Band 3)	Active Exploration	You're genuinely engaging with your future now, thinking things through in your own words, asking good questions, and staying curious even outside our sessions. You're also comfortable not having every answer right away, which is a real strength. You're not just waiting to be told what to do, you're exploring on your own.	• Research two career options in more depth, what the role actually involves, day-to-day. • Try to speak with someone (family friend, relative, senior) already working in a field you're curious about. • Start writing down how your favourite subjects connect to real career paths.
21–24 (Band 4)	Career Ready	You know yourself well, you're leading your own career conversations with confidence, and you're comfortable moving forward even without every detail sorted out. You're genuinely ready to start committing to real next steps and to own that decision as yours.	• Look up the entrance exams or eligibility requirements for your shortlisted paths. • Talk to a senior student or professional in your chosen field for practical, first-hand advice. • Set one concrete goal this term that moves you closer e.g. start a related short course, join a relevant competition, or shadow someone for a day.

Academic × Career Alignment

Compare the student's favourite subject (A1.1) against the Top Career Domain(s) from the Career Compass. Select the rating that best fits.

Rating	Student Note
Strongly Aligned	The subject you enjoy the most and the career direction that suits you both come from the same set of strengths. In other words, what you love doing in class and what you'd be good at in your future career are pointing in the same direction, that's a strong, natural connection to build on.
Partially Aligned	There's a genuine connection between what you enjoy and where your strengths point but it's not a perfect match. Some parts line up nicely, while other parts of the recommended path may need a bit more exploring or a slightly different subject combination than what you'd naturally pick.
Misaligned	Right now, the subject you enjoy most and the career direction your strengths point to seem to be pulling in two different directions. This isn't unusual, and it doesn't mean either one is "wrong" it just means this is worth talking through properly, so you understand why the gap exists and what your real options are.
Not Yet Assessed	There isn't enough information yet to compare your favourite subject with a career direction. This usually just means a part of the assessment or conversation is still pending nothing to worry about, please explore further with details.
Selected:	_____

COUNSELLOR SYNTHESIS NOTES	
Sl No	Notes
G1	<i>Behavioural Evidence : Note the specific behaviours or statements observed in-session that justify each S1–S6 score (e.g. "asked three follow-up questions unprompted" → strong S5).</i>
G2	<i>Pacing Decision : If the SCRI Band is 1 or 2 (Pre-/Early Exploration), soften the roadmap pacing: prioritise trust-building and low-pressure exploration over firm stream/degree decisions.</i>
G3	<i>Momentum Plan : If the SCRI Band is 3 or 4 (Active Exploration / Career Ready), proceed with concrete next steps in Section E and share the pathway confidently with parents at the PTM.</i>
G4	<i>Cross-check : Read the SCRI Band alongside the Academic × Career Alignment rating; a low Band combined with 'Misaligned' means the stream/career recommendation should be treated as provisional, not final.</i>

COUNSELLING GOALS & PROGRAMME EXPECTATIONS

Records what both the student and the parent expect to gain from the career counselling programme. Aligning these goals at the start of the session ensures the counsellor addresses the right priorities and manages expectations.

No	Parameter	Student Response	Parent Response
D1 - Stated Counselling Objectives			
D1.1	Primary counselling objective	18	21
D1.2	Anything specific counsellor to know before session	19	22

COUNSELLOR SYNTHESIS NOTES	
SI No	Notes
H1	<i>Shared vs. Distinct Priorities : Compare the student's and parent's primary objectives (D1.1); note what is shared and what is unique to each, so the session can address both.</i>
H2	<i>Sensitive Flags : Note any specific pre-session flag raised by either party (D1.2) that needs careful, private handling during the session.</i>
H3	<i>Session Plan Mapping : Translate the stated expectations into a concrete session focus (e.g. stream clarity vs. full roadmap vs. confidence-building) so time is allocated correctly.</i>
H4	<i>Expectation Gap : If student and parent expectations diverge significantly, note how the session will work to align both before the roadmap is finalised.</i>
